Happy 1st Birthday Tanner!

Rick's dog, Tanner, turned one on March 9. He received 1st place in the Family Companion class and completed his Good Canine Companion certification.

Will you be one of the millions on the road this summer?

Safety is one of the most important things to consider as you pack your car and leave home. To help you get ready for your next road trip, the National Crime Prevention Council recommends these 10 tips for travelers:

At home

1. Check all the locks before you leave home. Each door and window should have a sturdy lock.
2. Use motion-detection lights outside and time hedges to reduce potential hiding places for burglars. Set automatic timers on a few interior lights to give the impression that someone is home.
3. Don't post on social networking sites that you will be out of town.
4. Ask the post office to hold your mail. Do the same with home delivery of newspapers.

On the road

5. Pay attention to your surroundings.
6. Pick well lit gas stations and always remove your keys and lock the car doors while pumping gas.
7. Protect your valuables (GPS, MP3 players, cell phones) by keeping them out of plain view.
8. Take only the credit and other cards you will need. Leave the others at home, stored securely.
9. Never leave your hotel room unlocked, even to go to the ice or vending machine.
10. Don't open the door at a hotel or at home to someone you don't know or trust.

INSURANCE FACTS

Attention Employers: Many companies don't realize they have an employment issue until it's too late. Employment Practice Liability (EPL) provides protection for discrimination, wrongful termination, and harassment brought against an employer by a fulltime, part time, seasonal or temporary employee, applicant for employment, or recognized volunteer. This can jeopardize the future of any business. It just makes good sense to make sure your business is protected. Please call our office for a free quote.

Call us if you need to purchase Wedding Event Insurance! -It will protect you from venues that go out of business, severe weather, lost rings, and unemployment.

Going Green – Green Upgrade Coverage offers businesses an economical way to rebuild green. In the event of a covered loss, you can choose to replace damaged equipment with more energy-efficient or environmentally friendly alternatives such as motion-activated lights, automatic faucets and Energy Star-compliant building materials.

Green upgrades can be beneficial to businesses because they:

- May provide a healthier work environment for employees, which in turn contributes to higher productivity levels.
- Differentiate a business from the competition
- Reduce energy bills
- Improve building resale price

Summer Referral Contest- If you like the job we're doing, please let your friends know about us. For each of your referrals in June, July, and August that we quote, we'll give you a \$5 Tim Horton's Gift Card. The contest is open to everyone and no purchase is necessary.

We are now also licensed in Pennsylvania.
